

Table of Contents

1.

Introduction
2.

The Problem of Image Integrity
3.

Traditional vs. Perceptual Hashing
4.

Perceptual Hashing Concepts
5.

Perceptual Hashing Workflow
6.

Deep Learning: U-Net & MultiRes-RCF
7.

Zero-Watermarking Fundamentals
8.

Techniques for Multispectral Images
9.

Techniques for Hyperspectral Images
10.

Technical Comparison & Evaluation
11.

Future Directions and Applications
12.

Conclusion & References
